

Application for SSH connection from outside Japan

SSH connections from outside Japan (hostname does not end with ".jp") are usually not allowed in RCCS. Only if the application for the connection from abroad is accepted, you can access RCCS from the registered hosts during a certain period.

Application Form

- [Japanese version](#)

Submission

Please send e-mail with an attachment of the application form to [rccs-admin\[at\]jims.ac.jp](mailto:rccs-admin[at]jims.ac.jp). (replace [at] by @.)

How to know my public IP address?

If you want to login to RCCS from outside Japan and want to know your public IP address, the top page of RCCS will show you that as below (red; underlined).

(This might be different from the local IP address assigned to your computer.)

This message will be shown only if you are accessing from outside Japan.

The screenshot shows the RCCS login interface. At the top, it identifies the National Institutes of Natural Sciences (NINS) Okazaki Research Facilities Research Center for Computational Science. The login form includes fields for ID and Password, a 'Log in' button, and links for 'Request new password' and 'Password / Public key'. A yellow warning box states: 'Your access (ip: 66.249.82.127) seems to be from outside Japan. Some services are limited from your computer.' Below this, the 'Scientific results using RCCS' section features a diagram of energy levels for lanthanide complexes, showing transitions like 'Excitation Energy transfer (EET)', 'Back EET', 'Excitation', and 'F-f emission'. To the right, a link for 'Simulations of Chemical Reactions' is provided with a brief description of lanthanide emission processes. A 'Public Services' sidebar is visible on the left.

In this case, your public IP address is 66.249.82.127.
