

Application for SSH connection from outside Japan

SSH connections from outside Japan (hostname does not end with ".jp") are usually not allowed in RCCS. Only if the application for the connection from abroad is accepted, you can access RCCS from the registered hosts during a certain period.

Application Form

- [Japanese version](#)

Submission

Please send e-mail with an attachment of the application form to [rccs-admin\[at\]jims.ac.jp](mailto:rccs-admin[at]jims.ac.jp). (replace [at] by @.)

How to know my public IP address?

If you want to login to RCCS from outside Japan and want to know your public IP address, the top page of RCCS will show you that as below (red; underlined).

(This might be different from the local IP address assigned to your computer.)

This message will be shown only if you are accessing from outside Japan.

The screenshot shows the RCCS login interface. At the top, it identifies the user as being from outside Japan with the IP address 66.249.82.127. Below this is a login form with fields for ID and Password, and a 'Log in' button. A sidebar on the left contains navigation links: 'Request new password', 'Password / Public key', 'About RCCS', 'RCCS -- Quick Start', 'Public Services', 'Seminar/Event', and 'For ORION members'. The main content area is titled 'Scientific results using RCCS' and features a diagram of energy levels for lanthanide complexes. The diagram shows states such as $(^3P, ^3P)$, $(^1G, ^1G)$, $(^3F, ^3F)$, and $(^3D, ^3D)$, along with processes like 'Excitation Energy transfer for (EET)', 'Back EET', 'Excitation', and 'F-f emission'. A link for 'Simulations of Chemical Reactions' is also present.

In this case, your public IP address is 66.249.82.127.
